

# DATA INFRASTRUCTURE CAPACITY FOR EOSC

Debora Testi (CINECA)

Project coordinator

The DICE project has received funding from the European Union's Horizon 2020 project call H2020-INFRAEOSC-2018-2020 under Grant Agreement no. 101017207

# Summary

**Consortium: 24 Partners**  
**Coordinator: CINECA**

**Grant Agreement: 101017207**  
**Call: INFRAEOSC-07-2020**

**30 months**  
*(1 Jan 2021 – 30 Jun 2023)*

**Enable a European storage  
and data management infrastructure for EOSC**  
**Provide generic services to store, find, access,  
and process data in a consistent and persistent way**

**Budget: € 6.997.706,66**

**18 providers from 11 European countries are offering  
14 state-of-the-art data management services  
together with more than 50 PB of storage capacity**

Service providers

**CINECA**

**JÜLICH**

# Objectives

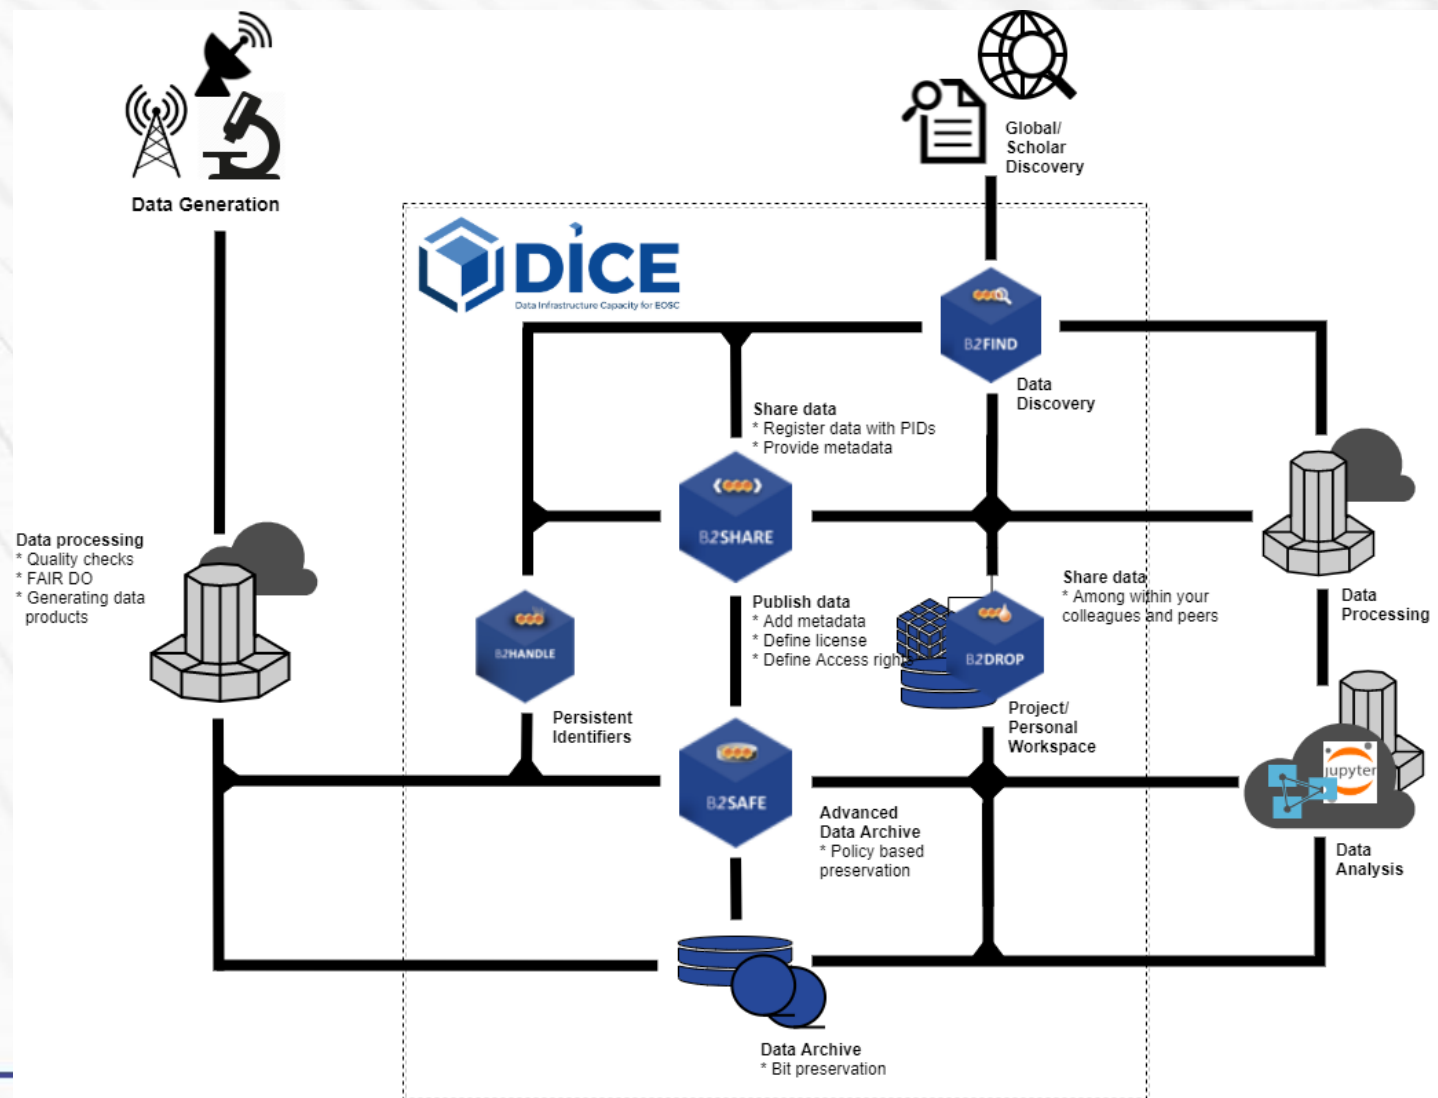

- ▶ Enable a European storage and data management infrastructure for EOSC
- ▶ Provide generic services to store, find, and access data in a consistent and persistent way
- ▶ Enrich the available data management services to better support: sensitive data, long-term preservation, connection with compute
- ▶ Provide resources under VA mechanism for each service

# Research data workflow

# Research data workflow - DICE

# DICE offering

## Data Discovery

Making research data findable  
Data source harvestable and to make data widely discoverable

## Data Repository

Long-term data resources preservation and sharing  
To store non-active FAIR data

## Policies based Data Archive

Mid-long term data resources, accessible from computing facilities to store non-active research data  
Value-added services (integrity checks, replications, ..) for long-term, stable data archives.

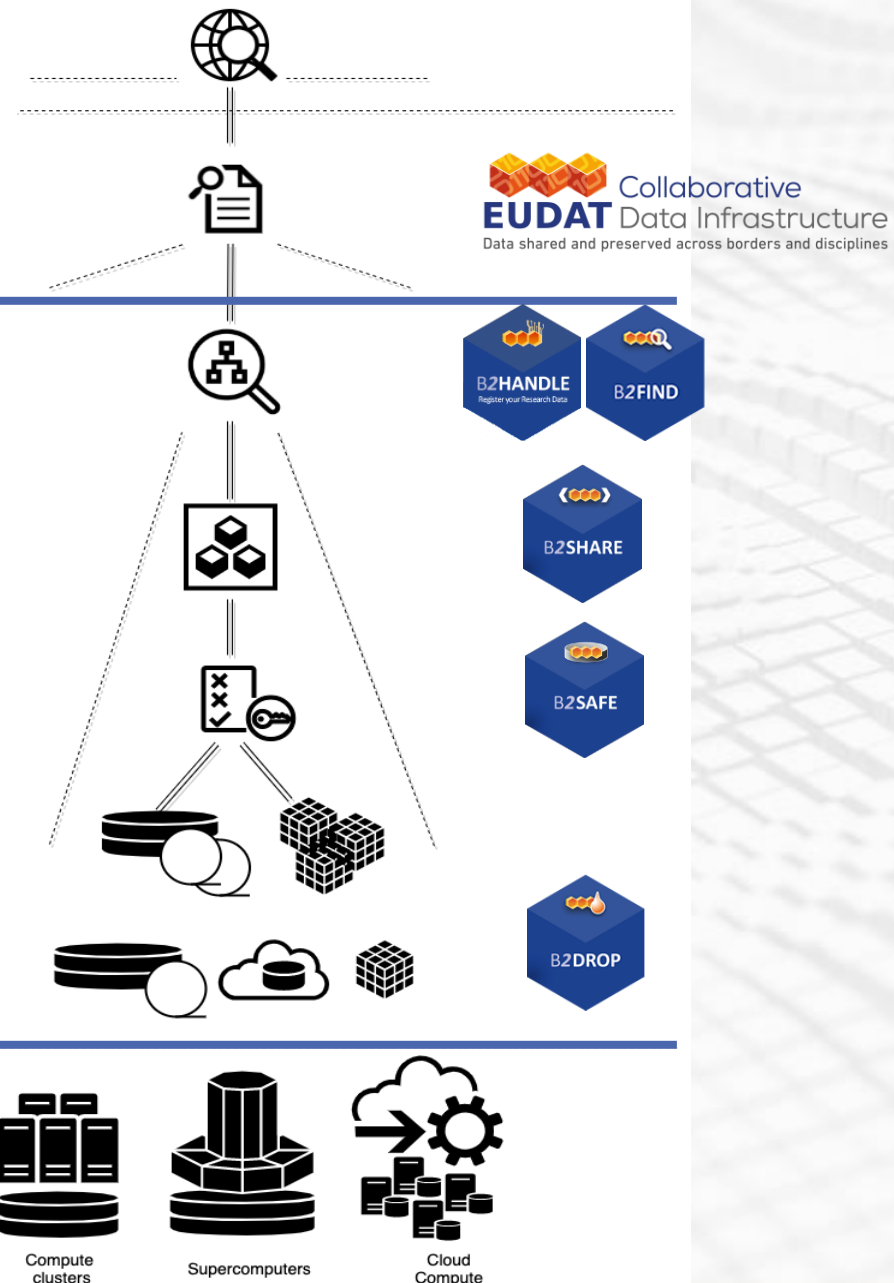

## Data Archive

Mid term storage resources after/between projects,  
Accessible from computing facilities to store non-active research data, bitwise preservation

## Personal and/or Project workspace

Mid-term storage during project,  
Good connection to computing facilities,  
To store active resource data

## DICE offering

	<b>Total capacity offered</b>
<b>Data discovery</b>	75 prefixes > 50 organisations
<b>Data repository</b>	7'900 TB
<b>Policy based Data Archive</b>	17'450 TB
<b>Data archive</b>	25'350 TB
<b>Personal/project workspace</b>	5'150 TB

Services can be used by themselves or in combination with other DICE services and providers

Resources are offered free at the point of use until June 2023

# Integration with communities' platforms

## SUMMARY

	Use cases	Compute and Analysis	Discovery and Referencing	Long Term Preservation
	biomed data findability and replica in HPC centers	B2SHARE B2HANDLE		B2SAFE
	radio astronomy data preservation and discovery		B2HANDLE B2FIND	B2SHARE
	benchmarking tool, data storage staging and publication	B2SHARE		B2SAFE

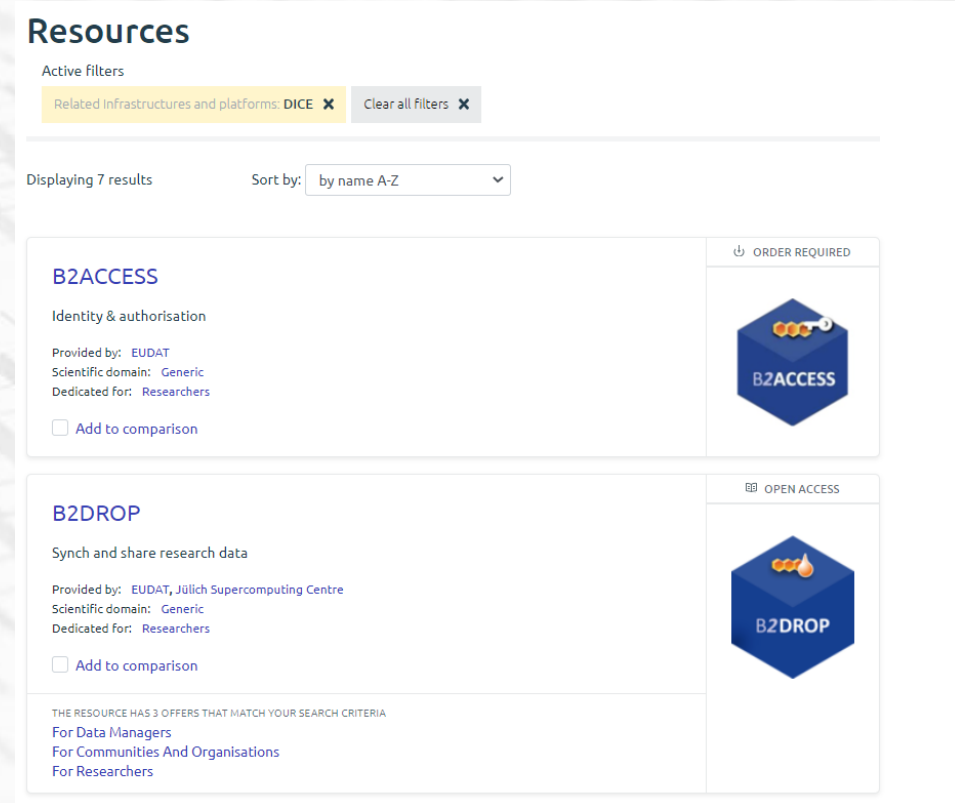

# How to access DICE services

- Services can be requested any time
- For most categories, services are already onboarded and accessible in the EOSC marketplace

[https://marketplace.eosc-portal.eu/services?sort=score&related\\_platforms%5B%5D=53](https://marketplace.eosc-portal.eu/services?sort=score&related_platforms%5B%5D=53)

- More services/installations will be made available in the next few weeks
- Services can be requested also via the EUDAT support channel:

<https://eudat.eu/contact-support-request>
